UltraHide For PC

UltraHide is a robust utility that provides users with an easy way to hide a bunch of windows. By pressing and holding the combination of keys while a window is displayed, a user can easily conceal it from the sight of others. Users may want to hide an active window temporarily without having to hide a huge number of windows. UltraHide can quickly be used to conceal a window and allow the user to retrieve it later. Features: UltraHide is a useful and free utility. Users can easily conceal their

active windows by pressing any of the key combinations given below. To unhide a concealed window, users only need to press the same combination of keys that were used to conceal it previously. UltraHide is fully configurable. A user can set the combination of keys to make UltraHide function in a number of ways. With the help of settings, users can choose to enable a password protection feature which will force a password in order to unhide UltraHide windows. When a user gets the password, they can easily unhide UltraHide hidden windows and get rid of the password requirement. UltraHide can be used in a stealth mode. A user can set the timeout to either immediately hide UltraHide windows or to keep them concealed for some specified period of time. When a user presses any of the keys required to hide an UltraHide window, the window is hidden, but UltraHide won't stop there. UltraHide won't stop hiding any window until the timeout period has elapsed. UltraHide also provides a password protected feature. A user can set the password so that UltraHide will either require a password each time a concealed window is unhidden or only allow users to unhide a window if the password is given. This gives users a lot of control over their hidden windows. UltraHide has a number of advanced features as well. When a user has a series of keys in the program and are using the program by pressing them in sequence, the program will perform a series of functions. Users can specify functions such as counting down the time remaining or counting down an interval of time. UltraHide also has a "watch" function. This function allows a user to have a number of keys kept on screen without hiding the window that is behind these keys. UltraHide is also fully compatible with all Windows OSs. Users can install UltraHide and use it with their Windows XP, Vista, Windows 7 and Windows 8 operating systems. Setting the parameters of UltraHide requires users to setup a proper shortcut. UltraHide provides a wizard that b7e8fdf5c8

UltraHide Crack+ With Key
